

EVOAQ HOME VENTILATION

Air Optimisation Software (AOS)

Low Energy Use

Moisture Control

Building Code Compliant

PM2.5 Filter

Designed in New Zealand

NZ'S MOST ADVANCED HOME VENTILATION

Maintain thermal comfort throughout your home - no more cold bedrooms caused by old-fashioned ventilation systems.

Control moisture and dampness with continuous ventilation, air-optimisation software and whisper-quiet fan technology.

No more surprises on your power bill with our energy-efficient A-Rated fans.

Compliant with NZ Building Code G4 and international ASHRAE 62.2 standards.

Designed and built in Auckland, New Zealand; Installed by HomeSol with more than 20 years experience in NZ homes.
